MBA Programmes place primary responsibility upon individual faculty members to decide on the course materials and method of teaching which will prove most effective in realizing the objectives of the course and are most suitable to the subject matter. No matter which course materials or delivery methods are adopted, they must pertain to achieving a balance between theory and practice, with a clear emphasis on relevance.

Teaching methods commonly used include lectures, discussions, case analyses, seminars, gaming models and directed research. In addition, company tours, surveys and field work are done by students, and local businessmen are invited to give guest lectures or lead in-class discussions.

Attendance: Mandatory

Participation: Active class participation is expected.

Class Size: Normally 15 - 60

Exam:

The format of assessment varies from course to course. If there is a final examination, it will be held during the last week of the term or during the examination week.
